

Director's Morning Meeting - 26 February 1974

Action Points on the PDP

1. The Director indicated a desire to use internal training where possible in preference to external.
2. The DCI suggested consideration be given to the development of an OTR course for senior DDI analysts and editors.

4. The Executive Career Service is to prepare a PDP as soon as possible.
5. The Director indicated that while we should be playing down any "musical chairs" concept in the inter-Directorate rotations and assignments, the programmed number of such assignments is relatively small and might be feasibly increased.
6. The DDM&S identified only two GS-13 officers for development on the Chart IIA and the Director suggested this be expanded. N.B. The supplemental chart prepared by DDM&S without reference to years did include 22 additional GS-13 officers.
7. Subsequent PDP's will provide for a statistical report of achievement, i.e., the PDP for FY 74-77 will include the FY 74 planned figures and the FY 74 actual results as well as the FY 75-77 goals.
8. The Director will meet individually with each Deputy Director to review their respective PDP's, including the individual position spread sheets listing positions and candidates.
